## EXPLORE OUR TRAILS

Montgomery Parks manages more than 37,000 acres of parkland, featuring more than 420 parks and 250 miles of interconnected trails.

Montgomery Parks is a department of The Maryland-National Capital Park and Planning Commission (M-NCPPC), a bi-county agency established in 1927 to steward public land. M-NCPPC has been nationally recognized for its high-quality parks and recreation services and is regarded as a national model by other parks systems.

Our trails offer amazing outdoor adventures and opportunities to explore nature. Our system is made up of hard surface and natural surface trails and we encourage visitors to practice trail safety at all times. To find a trail near you, use the Montgomery Parks Trailheads Map or go to [MontgomeryParks.org/Trails](https://MontgomeryParks.org/Trails)

**Natural Surface Trails** – Typically narrow (2-to-4-foot wide) dirt trails for hiking, horseback riding, and all-terrain biking. Unless noted otherwise natural surface trails are shared by all users.

**Hard Surface Trails** – Asphalt paths or any firm and stable surface capable of supporting casual walkers, cyclists, and people with mobility assistive devices.
