Lottery Managed Deer Hunting Program Pre-Screening Information

Thank you for your interest in the M-NCPPC, Montgomery Parks Lottery Managed Deer Hunting Program. The following is a description of the program and instructions for how to seek approval to participate. Please read this information carefully and fill out the required forms completely. **PLEASE NOTE: Pre-Screening Application forms are accepted throughout the year with a deadline of the first Friday in June for the upcoming program year. Pre-Screening Applications received after the first Friday in June will not be considered but will be retained for consideration for the following program year. Participation of individuals under the age of 18 years is limited to lottery- based firearms hunting at Little Bennett Regional Park, only. Participants under 18 must be accompanied by their parent or designated guardian/mentor (NOTE: The parent/guardian and/or mentor must be an approved program participant).**

In an effort to relieve impacts resulting from deer in and around select parks, Montgomery Parks conducts deer population management programming. The first managed deer hunts for the Department of Parks occurred in December 1996. Foremost objectives are to maintain safety and to harvest an appropriate portion of the deer population annually, to achieve a stable or negative population growth rate. Though primary objectives are focused on management, we work hard to provide participants with a quality hunting experience and success. This program allows for firearms hunting at select park locations and archery hunting at other park locations; both methods occur during the fall and winter months. All parks, with the exception of one, require treestand hunting only (limited ground hunting is available at Little Bennett Regional Park only). For firearms hunting, shot range is restricted to 80 yards or less whereas archery hunting shot range is restricted to 30 yards or less. Individuals who intend to participate in either or both, the firearms element and/or the archery element are required to pass Shooting Qualification test(s) with the applicable hunting implements, annually.

In an effort to uphold the Department's priority of program goals (Safety, Management Objectives, Hunter Satisfaction) We seek participants who:

1. Understand and support the objectives of the Montgomery Parks Deer Management Program.
2. Will prioritize safety and regulations above personal interests.
3. Are experienced, safe hunters capable of and willing to harvest multiple antlerless deer.
4. Are consistent, reliable, and willing to dedicate time and effort under a variety of conditions.

In order to be approved to participate in the Department's Managed Deer Hunting Lottery, all applicants must first submit the attached waiver and questionnaire as well as demonstrate proof of completion of a State hunter education/safety course (photocopy of certificate and/or card required; numbers by themselves will not be accepted). Additionally, for those intending to apply for the archery element of the Lottery Program, applicants must also provide proof of State-sanctioned and/or NBEF Bowhunter Education Certification. No other exceptions. Staff will review the Pre-screening questionnaire for knowledge of safety practices, regulations, deer hunting experience, and ability to read/comprehend and follow instructions etc. In addition, a background check will be required at the applicant's initiation and expense (\$18.50) to investigate prior infractions that might compromise the integrity of the managed deer-hunting program. See instructions, below.

Following staff review, applicants will receive notification informing them of program participation approval or denial. Assuming that there is no reason for dismissal from the program, applicants

need to be approved only once to gain acceptance as an approved participant. Once approved, participants will be placed on an active roster and assigned a participant ID number. During the last week of June or first week of July each year, participants will receive Lottery Application instructions and materials to apply for opportunities during the upcoming management season.

Correspondence occurs by **email, only**. Detailed information regarding participation requirements and procedures will be included in these application materials prior to the lottery and/or in the selection materials issued following the lottery. [**NOTE:** If you are denied the opportunity to apply, you may continue to submit the pre-screening packet to try to become approved (unless otherwise indicated). However, you may only submit one pre-screening application per season.]

Questions about the application process or the managed deer hunting program may be directed to Wildlife staff at (301) 962-1352. Please complete and attach the accompanying Pre-screening ethics statement/waiver and questionnaire.

Apply online for a background check before the first Friday in June:

1. Access the background check service via the following link:
